PALLIATIVE CARE FOR FRONTLINE WORKERS

Enhance your skills in delivering exceptional palliative & end-of-life care to clients and caregivers with CERAH's Palliative Care for Frontline Workers Course

As our population ages and health challenges evolve, the demand for skilled palliative care is more crucial than ever.

This course, tailored to the learning needs and preferences of frontline care providers, offers flexible learning to enhance skills in palliative care. Feedback from past participants highlights a significant boost in comfort and confidence in providing palliative care after completing the course.

Content Includes

- Introduction to Palliative Care
- Setting the Stage
- Physiology of Dying
- Pain
- Working with Individuals & families
- Advance Care Planning
- Culture
- Grief & Bereavement
- Helping Relationships & Self Care
- Working within a TEAM

Duration: 15 hour certificate course (typically delivered over 6 sessions or 2 full days)

Location: Face to face in Thunder Bay and Northwestern Ontario communities, and/or Online via the Zoom platform

Facilitators: Delivered by a variety of experienced professionals: Nursing (community, long-term care, hospital settings), Spiritual Care, Social Work, etc.
