PALLIATIVE CARE FOR FRONTLINE WORKERS

Enhance your skills in delivering exceptional palliative & end-of-life care to individuals and caregivers with CERAH's Palliative Care for Frontline Workers Course

As our population ages and health challenges evolve, the demand for skilled palliative care is more crucial than ever.

This course, tailored to the learning needs and preferences of frontline care providers, offers flexible learning to enhance skills in palliative care. Feedback from past participants highlights a significant boost in comfort and confidence in providing palliative care after completing the course.

Content Includes

Setting the Stage for a Palliative Approach to Care | Working with Individuals & Families | Advance Care Planning, Capacity & Consent | Pain | Physiology of Dying | Grief & Loss | Helping Relationships & Self Care | Working within a TEAM
